

**Score Choice** allows the test-taker (you) to decide which SAT scores by test date to release to prospective colleges. In the past, colleges would automatically receive all of your scores. Score choice is a free option that you choose when you register for the test. If you do not choose it, your prospective colleges will continue to receive all of your scores.

**Super Score** is the combination of the best score for each SAT section (Math, Critical Reading, Writing) from multiple tests, rather than just the total score of each SAT section from one single test. Super score is required in **Common Application** for college admission as shown below:

SAT Exam Dates: _____			Best Scores: _____		
(past & future)	mm/yyyy	mm/yyyy	(so far)	Reading	mm/yyyy
				Math	mm/yyyy
				Writing	mm/yyyy

College applicants should take their SAT as **early** as they can and as **often** as they can, based on the fact that more and more colleges honor Score Choice and accept Common Application.

## SAT I during Christmas Break & Saturdays in January 2012

(for January SAT)
